

Utah Tribal Health Data Summit

Agenda

Thursday, October 8, 2026

Time	Session	Speakers
8:00-9:00 AM	Check-in & Breakfast	
8:50-9:00 AM	Opening Blessing	
9:00-9:10 AM	Welcoming Address	Heather R. Borski & Donna Eldridge
9:10-10:00 AM	Keynote: "Tribal Data Sovereignty"	Abigail Echo Hawk
10-10:20 AM	Data Modernization Initiative	Nicole Yerkes
10:20-10:30 AM	BREAK: Networking with information tables	
10:30-11:30 AM	Data Experts panel: Key Data Systems in Utah	Facilitator: Kyle Lunt
11:30-11:45 AM	Publicly available data: Surveillance Dashboards	Bree Barbeau
11:45 AM-12 PM	Publicly available data: Healthy Places Index	Sarah Hodson
12:00-1:00 PM	BREAK: Networking with information tables	
1:00-2:00 PM	Tribal Health & I/T/U Professionals: "Ascending Together: the Future of Tribal Health Data in Utah"	
	Community & Public Attendees: FREE Naloxone training - Naloxone Nasal Sprays will be provided	
2:15-2:30 PM	Publicly available data: Utah's Indicator Based Information Systems (IBIS)	Tong Zheng & Kim Neerings
2:30-3:30 PM	Tribal Data Experts panel: Needs in Indian Country	Facilitator: Lorena Horse
3:30-4:15 PM	Closing Keynote: "Data in Action"	Utah Fentanyl Task force
4:15-4:30 PM	Final Remarks	Ozzy Escarate
4:30-4:40 PM	Closing Blessing	

Utah Tribal Health Data Summit

Agenda

Thursday, October 8, 2026

8:00-9:00 AM

Check-in & Breakfast

Sponsored by University of Utah Center for Native Excellence & Tribal Engagement

9:00-9:10 AM

Welcome Address

[Speaker bios on page 12](#)

- **Heather R. Borski** - DHHS Assistant Deputy Commissioner, Community Health & Well-Being
- **Donna Eldridge** - Director, Office of Academic Culture and Community

9:10-10:00 AM

Opening Keynote | "Tribal Data Sovereignty"

Abigail Echo-Hawk

Director, Urban Indian Health Institute

Executive Vice President, Seattle Indian Health Board

An enrolled citizen of the Pawnee Nation of Oklahoma. She is currently the Executive Vice President at Seattle Indian Health Board and the Director of Urban Indian Health Institute.

Currently, Abigail is part of multiple committees, Boards, and workgroups including the Best Starts for Kids Board, the March of Dimes Health Equity Workgroup, the Tribal Collaboration Working Group with the NIH All of Us Research Program, the Advisory Committee for Health Equity Research at the Robert Wood Johnson Foundation, the NIDA American Indian and Alaska Native Collaborative Research Engagement Workgroup, and the Board of Data for Indigenous Justice.

In the past, Abigail spent eight years as the Tribal Liaison with Partnerships for Native Health at the School of Public Health at The University of Washington. In 2016, she became the Co-director of Partnerships of Native Health at the Washington State University Institute for Research and Education to Advance Community Health. Abigail was also the Tribal Relationship Facilitator at the Institute of Translational Health Sciences at the University of Washington from 2010 to 2015. In 2015, she became a Board Member for the Center for Indigenous Law and Justice.

Abigail has a Bachelor of Arts degree in Interdisciplinary Studies and a Master of Arts degree in Policy Studies, both from the University of Washington. She is an expert in American Indian and Alaska Native health, including strengths and resiliencies as well as deficits and disparities.

HOSTED BY

**Department of Health
& Human Services**

**American Indian/Alaska Native
Health & Family Services**

Utah Tribal Health Data Summit

10:00-10:20 AM Data Modernization Initiative

Nicole Yerkes

Nicole Yerkes is a seasoned public health practitioner, leader, and innovator with over 10 years of experience in government, academic, and non-profit public health. Nicole holds a Master of Public Health and Tropical Medicine from Tulane University, where she focused on emerging infections and migrant health.

She is currently the Data Modernization Initiative Director for the Utah Department of Health and Human Services. Prior to this role, she served as the COVID-19 Contract Tracing Manager operating the State's non-pharmaceutical response efforts to the COVID-19 pandemic.

Nicole has worked in a variety of roles including front-line community work through the Peace Corps, refugee resettlement non profits both domestically and abroad, and managing viral hemorrhagic fever research both domestically and abroad. In her spare time, she enjoys sand volleyball, reading, and adventuring.

10:20-10:30 AM Break and networking with information tables

10:30-11:30 AM Panel Discussion | Data Systems in Utah

Facilitator:
Kyle Lunt

Director,
Division of Data,
Systems & Evaluation

Come and learn about various types of public health data in Utah and the programs that manage them. Panelists will discuss ways public health data is being used and how tribes can access data at the Utah Department of Health and the Utah Cancer Registry.

Panelists:

[Panelist bios on pages 8-9](#)

- **Nicole Bissonette**, Director of the Office of Vital Records and Statistics and the State Registrar
- **Patrice Nicholes**, Director of the Office of Healthcare Statistics
- **Scott Christofferson**, DHHS Informatics team & Epitrax
- **Randon Gruninger**, Syndromic Surveillance & Public Health Modeling Manger
- **Morgan Millar**, Utah Cancer Registry Sociologist and survey methodologist

Utah Tribal Health Data Summit

11:30-11:45 AM Publicly Available Data | Surveillance Dashboards

**Bree
Barbeau**

Bree Barbeau, MPH, is a public health and epidemiology leader with more than a decade of experience in infectious disease surveillance, research, data analytics, program management, and organizational leadership.

She currently leads statewide surveillance initiatives at the Utah Department of Health and Human Services, overseeing multidisciplinary work in syndromic, wastewater, and genomic surveillance, as well as data quality, modeling, and analytics.

Bree is passionate about using data to strengthen public health systems, inform decision-making, and translate complex information into meaningful action.

11:45 AM-12 PM Publicly Available Data | Healthy Places Index

**Sarah
Hodson**

Sarah Hodson is the Deputy Director of the Office of Health Promotion and Prevention at the Utah Department of Health and Human Services. She graduated with Bachelor's and Master's Degrees in Community Health Education from Utah State University.

Ms. Hodson previously worked as the Director of Health Promotion for the Greater Chicago Chapter of the Arthritis Foundation, the Communications Development Manager for Mountainlands Community Health Center, and the founding Executive Director of Get Healthy Utah. Ms. Hodson currently serves as the President of the Utah Public Health Association board.

12:00-1:00 PM Break and networking with information tables

Snacks sponsored by U of U Spencer Fox Eccles School of Medicine.
Lunch sponsored by Nat-Su Healthcare and the Huntsman Cancer Institute.

Tribal health professionals and I/T/U leaders, please check-in for activity "Ascending Together: the Future of Tribal Health Data in Utah" with **Alex Merrill and IHFS team**.

Utah Tribal Health Data Summit

1:00-2:00 PM

Community & Public Attendees:

Naloxone Training - Naloxone Nasal Sprays will be provided

Tribal Health & I/T/U Activity:

"Ascending Together: the Future of Tribal Health Data in Utah"

2:15-2:30 PM

Publicly Available Data:

Utah's Indicator Based Information System (IBIS)

**Tong Zheng &
Kim Neerings**

Tong Zheng has spent 26 years managing and analyzing data at DHHS. For over two decades, she has managed the Indicator-Based Information System for Public Health (IBIS) query system.

Kim Neerings is a Senior Business Analyst at the Utah Department of Health and Human Services with over 30 years of experience in public health. She manages the indicator reports and community snapshots on the Indicator-Based Information System for Public Health (IBIS) website. She also manages the production of the bi-monthly Utah health status update publication.

2:30-3:30 PM

Panel Discussion | Data Needs in Indian Country

**Facilitator:
Lorena Horse**

Executive Officer of
Sacred Circle Healthcare

Come and learn about how tribes, tribal epidemiology centers, the Urban Indian Center of Salt Lake, and the Indian Health Service work together to improve the health of tribal populations in Utah. Panelists will also discuss the best way for partners to engage with tribal public health entities.

Panelists:

[Panelist bios on pages 10-11](#)

- **Del Yazzie**, Director/Senior Epidemiologist of the Navajo Epidemiology Center
- **Robert Morones**, Area Injury Prevention Program Manager for the Phoenix Area Indian Health Service (IHS)
- **Sharon Austin**, Urban Indian Center of Salt Lake (UICSL) Public Health
- **Tina Billy**, Health Director for the San Juan Southern Paiute Tribe

Utah Tribal Health Data Summit

3:30-4:15 PM

Closing Keynote: Utah Fentanyl Task force

The Fentanyl Task Force is committed to addressing the fentanyl crisis by identifying and resolving critical gaps in data collection, prevention, treatment, awareness and law enforcement efforts.

**William
"Bill" Newell**

Coordinator for
Utah Governor's
Fentanyl Task Force

Since October, 2024, William "Bill" Newell has served as the Coordinator of the Utah Governor's Fentanyl Task Force. In this capacity he collaborates with law enforcement, public and private health, and community based organizations throughout Utah to ensure that all voices involved in this important work are being considered and represented.

He also serves as the Coordinator of Utah's Crime Gun Intelligence Center. This work is focused on addressing firearms related violent crime in Utah through the use of cutting edge forensic technology, law enforcement training and community engagement. Both positions are managed out of the Utah Department of Public Safety HQ in Taylorsville.

The year 2026 marks Bill's 38th year in law enforcement which includes 32 years as a Special Agent/Criminal Investigator with the U.S. Department of Justice, and the last 6 years with the Utah Department of Public Safety. He has been married for over 30 years and is father to two wonderful children and one even more

**Megan
Broekemeier**

Epidemiology
Manager for the Utah
Office of the Medical
Examiner (OME)

Megan Broekemeier, MPH, serves as an Epidemiology Manager for the Utah Office of the Medical Examiner (OME) within the Department of Health and Human Services. She specializes in fatal drug overdose surveillance and the development of specialized OME data systems.

Megan's work is uniquely person-centered; she leads interviews with drug overdose loss survivors to uncover events and circumstances that occurred before death to guide prevention efforts. Additionally, Megan developed and currently oversees a new family support program within the OME. Megan spends her time away from the office recreating with her family.

siac.utah.gov/fentanyl-task-force/

Utah Tribal Health Data Summit

4:15-4:30 PM

Final Remarks | Thank you for joining us today!

Ozzy E. Escarate

Director for Office of
AI/AN Health & Family
Services (IHFS)

The Office of AI/AN Health & Family Services engages with tribal leadership at all levels, works across all DHHS operational units, develops partnerships, and negotiates contracts on behalf of tribal governments to facilitate resource allocation. In addition, Mr. Escarate serves on inter-agency committees, task forces, and advisory committees with local governments, communities and the public sector.

Prior to his current work with Utah DHHS, Ozzy served as the Tribal Administrator for the Confederated Tribes of the Goshute Reservation in Ibapah, UT, and held similar positions in Alaska before relocating to Utah. His focus has been community development by addressing social, economic and policy issues locally and regionally. Through his dedicated work and involvement, Ozzy has made significant contributions to community and economic development capacities in rural and urban settings.

On the weekend, Ozzy can be found riding his mountain bike on a desolate desert gravel road or enjoying his favorite coffee at the local coffee shop.

HOSTED BY

**Department of Health
& Human Services**

American Indian/Alaska Native
Health & Family Services

Facilitator: **Kyle Lunt**

Director,
Division of Data,
Systems & Evaluation

Kyle Lunt is the Division of Data, Systems & Evaluation Director at the Department of Health and Human Services and served as an office director in prior. The division manages department data resources, vital records, and information privacy and security. Before working for the State of Utah, Kyle and his family enjoyed living in Wisconsin where he worked as an Integration Engineer at a large EHR company. In that role, Kyle helped healthcare organizations implement and maintain interfaces to meet their interoperability needs.

Kyle and his wife met during their freshman year at Southern Utah University and were later married while enrolled in rival schools. They enjoy the outdoors with their four young boys. Kyle received a degree in Applied and Computational Mathematics from Brigham Young University before finding a position in the healthcare industry.

Nicole Bissonette

Director of the Office of
Vital Records and Statistics
and the State Registrar

Every data point tells a story about our community's health, history, and future. As the Director of the Office of Vital Records and Statistics at the Utah Department of Health and Human Services, Nicole leads the mission of preserving Utah's most essential vital event data while ensuring it serves as a reliable foundation for people born in Utah to navigate life.

Combining a strong foundational background from the University of Northern Colorado with years of public sector leadership, Nicole thrives on the intersection of compliance, technology, and human services.

Her goal is to continually innovate how we manage vital records—making systems more secure, accessible, and efficient for the individuals and organizations that rely on them every day.

Learn more at <https://vitalrecords.utah.gov/>

Patrice Nicholes

Director of the Office of
Healthcare Statistics

Patrice Nicholes was appointed the Healthcare Statistics Program Manager in 2024, bringing significant experience in healthcare data and public health informatics. She has served in several roles within the State of Utah, including her work with the Bureau of Emergency Medical Services and Preparedness and the Statewide Immunization Information System (USIIS) as an informaticist. Most recently, she was a research consultant with the Office of Research and Evaluation.

Before joining the Department of Health and Human Services, Nicholes gained valuable experience at the Salt Lake County Environmental Health Department and the University of Utah's Department of Family and Preventive Medicine.

Nicholes holds a Bachelor of Science degree in Psychology and a Master of Science degree in Biomedical Informatics with a specialization in Data Science, both from the University of Utah.

Learn more at <https://healthcarestats.utah.gov/>

**Scott
Christofferson**

Scott Christofferson began his public health career in the private sector working for an electronic health record (EHR) vendor that collaborated closely with the Health Clinics of Utah. Inspired by the clinic staff and their overarching mission, Scott sought to apply his skill set to public health, joining the informatics team in March 2021.

Since then, Scott has worked closely with EpiTrax and remains deeply invested in the public health mission. As an enthusiastic advocate for open-source initiatives, he strongly believes the PHAST Consortium—which Utah played an integral role in creating—deserves national recognition and local championing.

Learn more at <https://www.epiphast.org/epitrax>

Morgan Miller

Sociologist and survey
methodologist

Morgan M. Millar, PhD is the Director of Evaluation and Quality Assessment for the Utah Cancer Registry and an Associate Professor in the Division of Epidemiology, Department of Internal Medicine at the University of Utah School of Medicine.

In her role at the registry, she oversees program evaluation initiatives, collaborates with public health cancer programs, and prepares reports on Utah's cancer statistics. She also leads a study to understand the experiences of Utah's cancer survivors.

Learn more at <https://uofuhealth.utah.edu/utah-cancer-registry>

**Randon
Grunniger**

Syndromic Surveillance &
Public Health Modeling Manger

Randon Gruninger has spent the past decade with the Utah Department of Health and Human Services working across diverse public health domains. His experience spans roles as a Preparedness, Communicable Disease, and Healthcare-Associated Infections Epidemiologist, leading up to his current role overseeing Syndromic Surveillance and Public Health Modeling.

Randon possesses deep technical expertise in the state's primary surveillance data infrastructure and works extensively to translate public health data into actionable insights.

Learn more about Office of Communicable Diseases at <https://epi.utah.gov/>

Facilitator: **Lorena Horse**

Executive Officer at
Sacred Circle Healthcare

Lorena Horse is an enrolled member of the Confederated Tribes of the Goshute Reservation and is an alumnus of the University of Utah. She received her bachelor's degree in psychology in 2000 and a master's degree in social work in 2002. She is currently the Executive Officer of Sacred Circle Healthcare.

During Lorena's professional career, she has had dual roles as a clinician and in management, leading her respective agencies to receive licenses and certifications in their field of care. Since entering college, her main goal was to move her tribe forward so that all can heal and prosper. She enjoys spending time with her family, traveling, reading, and being an active part of her community.

Learn more about Sacred Circle Healthcare at <https://sacredcircle.com/>

Del Yazzie

Director/Senior
Epidemiologist of the
Navajo Epidemiology
Center

Del received his master's degree in public health from Johns Hopkins Bloomberg School of Public Health. His educational background includes training in public health, tribal epidemiology, data science, tribal health policy development, tribal institutional review board, and health research.

He has worked on a range of tribal health projects focused on addressing health disparities among tribal communities. He currently works as the Director/Senior Epidemiologist of the Navajo Epidemiology Center.

He has also filled several other key leadership roles for the Navajo Nation, including serving as a member of the Navajo Nation Human Research Review Board (tribal IRB), technical advisor for the Navajo Nation President serving on the CDC and NIH tribal advisory committees. He is an enrolled member of the Navajo tribe and bilingual in Navajo and English languages.

Learn more about the Navajo Epidemiology Center at <https://nec.navajo-nsn.gov/>

Robert Morones

Area Injury
Prevention Program
Manager for PHX IHS

Robert Morones is currently the Area Injury Prevention Program Manager for the Phoenix Area Indian Health Service (IHS) within the U.S. Department of Health & Human Services. He is responsible for managing the Phoenix Area Injury Prevention Program, focusing on assisting over 40 Arizona, California, Nevada, and Utah tribes and IHS professional staff in the development of community-based injury prevention programs and initiatives.

Robert's past positions include being assigned as an IHS District Injury Prevention Coordinator in Tempe, AZ; IHS Service Unit Environmental Health Officer at the Fort in Winterhaven, CA; and as an Environmental Health Specialist at the Centers for Disease Control & Prevention (CDC) in Atlanta, GA. His education background includes a B.S. in Environmental Health Sciences from Wright State University and an MPH from the University of Massachusetts at Amherst.

Learn more about the [PHX Area IHS Injury Prevention Program](#)

Sharon Austin

Public Health
Department for
Urban Indian Center
of Salt Lake (UICSL)

Sharon Austin, PhD, MPH, MA, is Tábaqhá (Water's Edge) and born for Áshiihi (from the Hopi). Her maternal grandfather's clan is Áshiihi, and her paternal grandfather's clan is Tódich'í'ni (Bitter Water). She is Diné, originally from Shiprock, New Mexico, where she graduated from high school and afterwards left to begin her educational journey.

Dr. Austin's background is in public health with an emphasis on American Indian/Alaska Native (AI/AN) health. She holds a PhD and MPH in Public Health from the University of Utah and a master's degree in Medical Anthropology from Stanford University. Her work bridges epidemiology, health disparities, prevention, public health programming, community-based research, and culturally grounded evaluation. Dr. Austin has contributed to peer-reviewed publications on cancer disparities, tobacco cessation, women's health, and chronic disease. She is also a longtime advocate for community engagement when conducting research. She has previously served as a board member and program evaluation contractor for the Urban Indian Center of Salt Lake (UICSL).

Currently, Dr. Austin manages UICSL's Public Health Department, which provides diabetes prevention and management, access to dietitians, and fitness programs for all ages. The department also leads health promotion and disease prevention through education, outreach, data-informed services, and research support. A Home Visit Program is forthcoming and will offer in-home assessments, service navigation, and birthing and postpartum support.

Learn more about the Urban Indian Center Salt Lake at <https://uicsl.org/>

Tina Billy

Health Director for
San Juan Southern
Paiute Tribe

Tina Billy serves as the Health Director for the San Juan Southern Paiute Tribe, where she is committed to supporting the health and well-being of tribal members through prevention, wellness, behavioral health, and community-based services. She holds a degree in Health Sciences with an emphasis in Public Health from Northern Arizona University in Flagstaff, Arizona.

Tina is Navajo and resides in Tuba City, Arizona. She is a U.S. Army veteran and has a strong passion for serving her community. She continues to volunteer with Color Guard and supports veterans through local events and activities. She also serves as a volunteer advisory member for community land use planning (planning and zoning).

Tina values working alongside tribal members, community partners, and leadership to strengthen services, address community needs, and create healthier opportunities for Native families and future generations.

Learn more about the San Juan Southern Paiute Tribe Public Health at <https://www.sanjuanpaiute-nsn.gov/departments/health-dept>

Heather R. Borski

DHHS Assistant Deputy
Commissioner,
Community Health &
Well-Being

Heather Borski, MPH, MCHES, has worked for the Utah Department of Health for more than 25 years, and currently serves as an assistant deputy commissioner. Prior to serving in this role, Heather directed the Division of Disease Control and Prevention from 2016-2020, directed the Bureau of Health Promotion from 2007-2016 and managed the Tobacco Prevention and Control Program from 2001-2007.

Heather has an undergraduate degree in Health Education and a Masters of Public Health from the University of Utah. She is also a Master Certified Health Education Specialist, and is an alumna of both the Great Basin Public Health Leadership Institute and National Public Health Leadership Institute. Heather has served on several professional boards, including for the Utah Public Health Association (Board President, 2017-2018), Get Healthy Utah, National Association of Chronic Disease Directors, Directors of Health Promotion and Education (Board President, 2014-2015), Utah Partners for Healthy Weight, and Health Education Association of Utah (Board President, 2001-2002).

In 2022, Heather was the recipient of the inaugural Martha Hughes Cannon Award for her career of service dedicated to improving public health.

Learn more about the State of Utah Department of Health & Human Services (DHHS) at <https://dhhs.utah.gov/>

Donna Eldridge

Director of the Office
of Academic Culture
and Community

Donna is a member of the Navajo Nation from Shiprock, New Mexico, earned her Bachelor's Degree in Social Work from the University of Utah in 2012 and followed it with a Master's Degree in Social Work from the same institution in 2013. Currently serving as the Director of the Office of Academic Culture and Community at the University of Utah Spencer Fox Eccles School of Medicine. In this role, Donna is dedicated to developing and implementing organizational strategies that promote a sense of belonging and well-being.

As Director, Donna oversees and directs the operations and strategic planning of office initiatives. This includes setting goals, creating objectives, and building partnerships with external organizations. She is actively involved in developing programs that focus on the recruitment and retention of faculty, staff, trainees, and students from all backgrounds, ensuring they are holistically enriched, supported, and advocated for.

Learn more about the Office of Academic Culture and Community - University of Utah Spencer Fox Eccles School of Medicine at <https://medicine.utah.edu/oacc>

Alex Merrill is an epidemiologist at the Utah Department of Health and Human Services (DHHS) in the Office of American Indian and Alaska Native Health and Family Services. He works to improve how tribes access DHHS services and data. He has master's degrees in Public Health and Public Administration from the University of Utah.

amerrill@utah.gov

Alex Merrill

IHFS Tribal
Epidemiologist

Hilary Makris is the Tribal Program Manager in the Office of American Indian/Alaska Native Health and Family Services in the Utah Department of Health & Human Services. She is a proud member of the Salt River Pima Maricopa Indian Community.

Hilary has her BA from the University of Utah in Behavioral Sciences and Health and a Master of Public Health from Westminster College. She has worked in public health for the last 11 years.

hmarkis@utah.gov

Hilary Makris

IHFS Tribal Health
Program Manager

Kassie John

IHFS Opioid & Tobacco
Program Coordinator

Yá'át'ééh! Kassie John is a descendant to generations of storytellers, artists, and is a proud Diné woman from the Navajo Nation. In her 7 year career as a tribal health program coordinator for the State of Utah's Department of Health & Human Services, she created multiple public health campaigns specific to substance misuse with opioids and commercial tobacco cessation. Leaning on her ceremonial teachings and cultural background, she was able to create a space for her AI/AN relatives to share their knowledge on traditional tobacco.

Kassie is an Indigenous Designer, and owner of Native Generations, a woman-owned and operated Native American dance company based in Salt Lake City, Utah. She was honored as a cultural goodwill ambassador, as Miss Indian World for 2024-2025. An avid Jingle Dress dancer, Kassie enjoys her time traveling, reading, and supporting Indigenous artists, languages, and cultures.
